Data File Background Info

What is a data file?

- Used to update contacts or add new contacts
- Always a .csv file
- Contains contact information used in Message
- Can be manually updated by program and account admin

A	B	C	D	E	
customer_id	major	donation_amo	staff_name	prior_donor	sign

Where is my data file?

- Do you have a master file?
 - Communicate with other users in your institution
 - Who is supposed to update / add?
- Export your data to create an data file
 - Program tab
 - Export contacts

***there are fields in the export file that will fail your import, delete them!**

Export Contact Data

What contact data would you like us to export? Exports will be formatted as CSV file and emailed to your account email address.

All Contacts
The export will contain all profile data for each contact that you have access to view in this program.

Only Unreachable Contacts
The export will contain all profile data for any contact that does not have an SMS-enabled phone number.

[Begin Export](#)

Avoid an Error!

- Delete the extra columns
- Edit your data
- Reupload the file!

When you export your data, message will add a few extra columns at the end. Get rid of them!

	sys_send_1	sys_carrier	sys_phone_type
000000	FALSE	UNKNOWN	UNKNOWN
000000	FALSE	UNKNOWN	UNKNOWN
000000	TRUE	UNKNOWN	UNKNOWN
000000	TRUE	UNKNOWN	UNKNOWN

In Platform

- Export Contacts
- Retrieve File
- Delete extra columns

Data File Rules

1. .CSV file
2. Column headers must be **all lower case, no spaces**
3. Column headers must **match your field name 100%**
 - Check this under → **Program Tab; → Custom Fields**
 - Note: Custom fields cannot be edited once they're created
4. Type of data must **match the field type** exactly
 - There's a cheat sheet at the bottom of → **Program Tab; → Custom Fields**
5. You always need **customer_id** or **signalvine_id** when updating

Demo Error Troubleshooting In App

- Upload data file
- Correct errors
- Show how to search errors in knowledge base

Incorrect Phone Number

Incorrect Phone Number

- **Step 1:** Mark this contact as “Invalid” to ensure they don’t get any messages.
- **Step 2:** Verify and update the number.
 - In some cases, it might be a mom’s phone number, and she can provide the correct number. When this happens, you can simply update the phone number in your
 - **Manual Imports:** Update the number in your data file (look in SIS or CRM to update manually)
 - **Automatic Imports:** Update the number in your management system or system of record that communicates with Message.
- **Step 3:** Revalidate the number – This is NOT automatic!

Locate landlines

- Export contacts
- Sort the column
- `sys_phone_type`
 - Fixed = a landline
 - Voip = a landline / unreachable number
 - Unknown

Data Clean-Up

New to Data Clean-Up?

Contact support to strategize!

Archiving vs. Deleting

- **Archiving (keep your data):**

- Retains all data within the messaging system.
- Can be performed by program or account admin.
- Moves contact between groups or opts them out.

- **Deleting (delete your data):**

- Done by message support.
- Permanently removes contact data and message history.
- Recommended only for true duplicates or contacts without message history

Archiving

- Option 1: Update group_list via data file upload

- Pull list of inactive individuals from your CRM
- Update their group_list to a new group

- **group_list ideas**

- Inactive
- Archive
- Graduated
- Make it easy to see by making the group_list all caps!

- Option 2: Opt-out inactive contacts

- USE CAUTION!
- Ensures 100% these contacts will NOT receive message
- If you might want to contact these folks again EVER, do not opt them out! 😊

- Option 3: Mark as "phone invalid"

What affects data clean up strategy?

45

Add a Single Contact

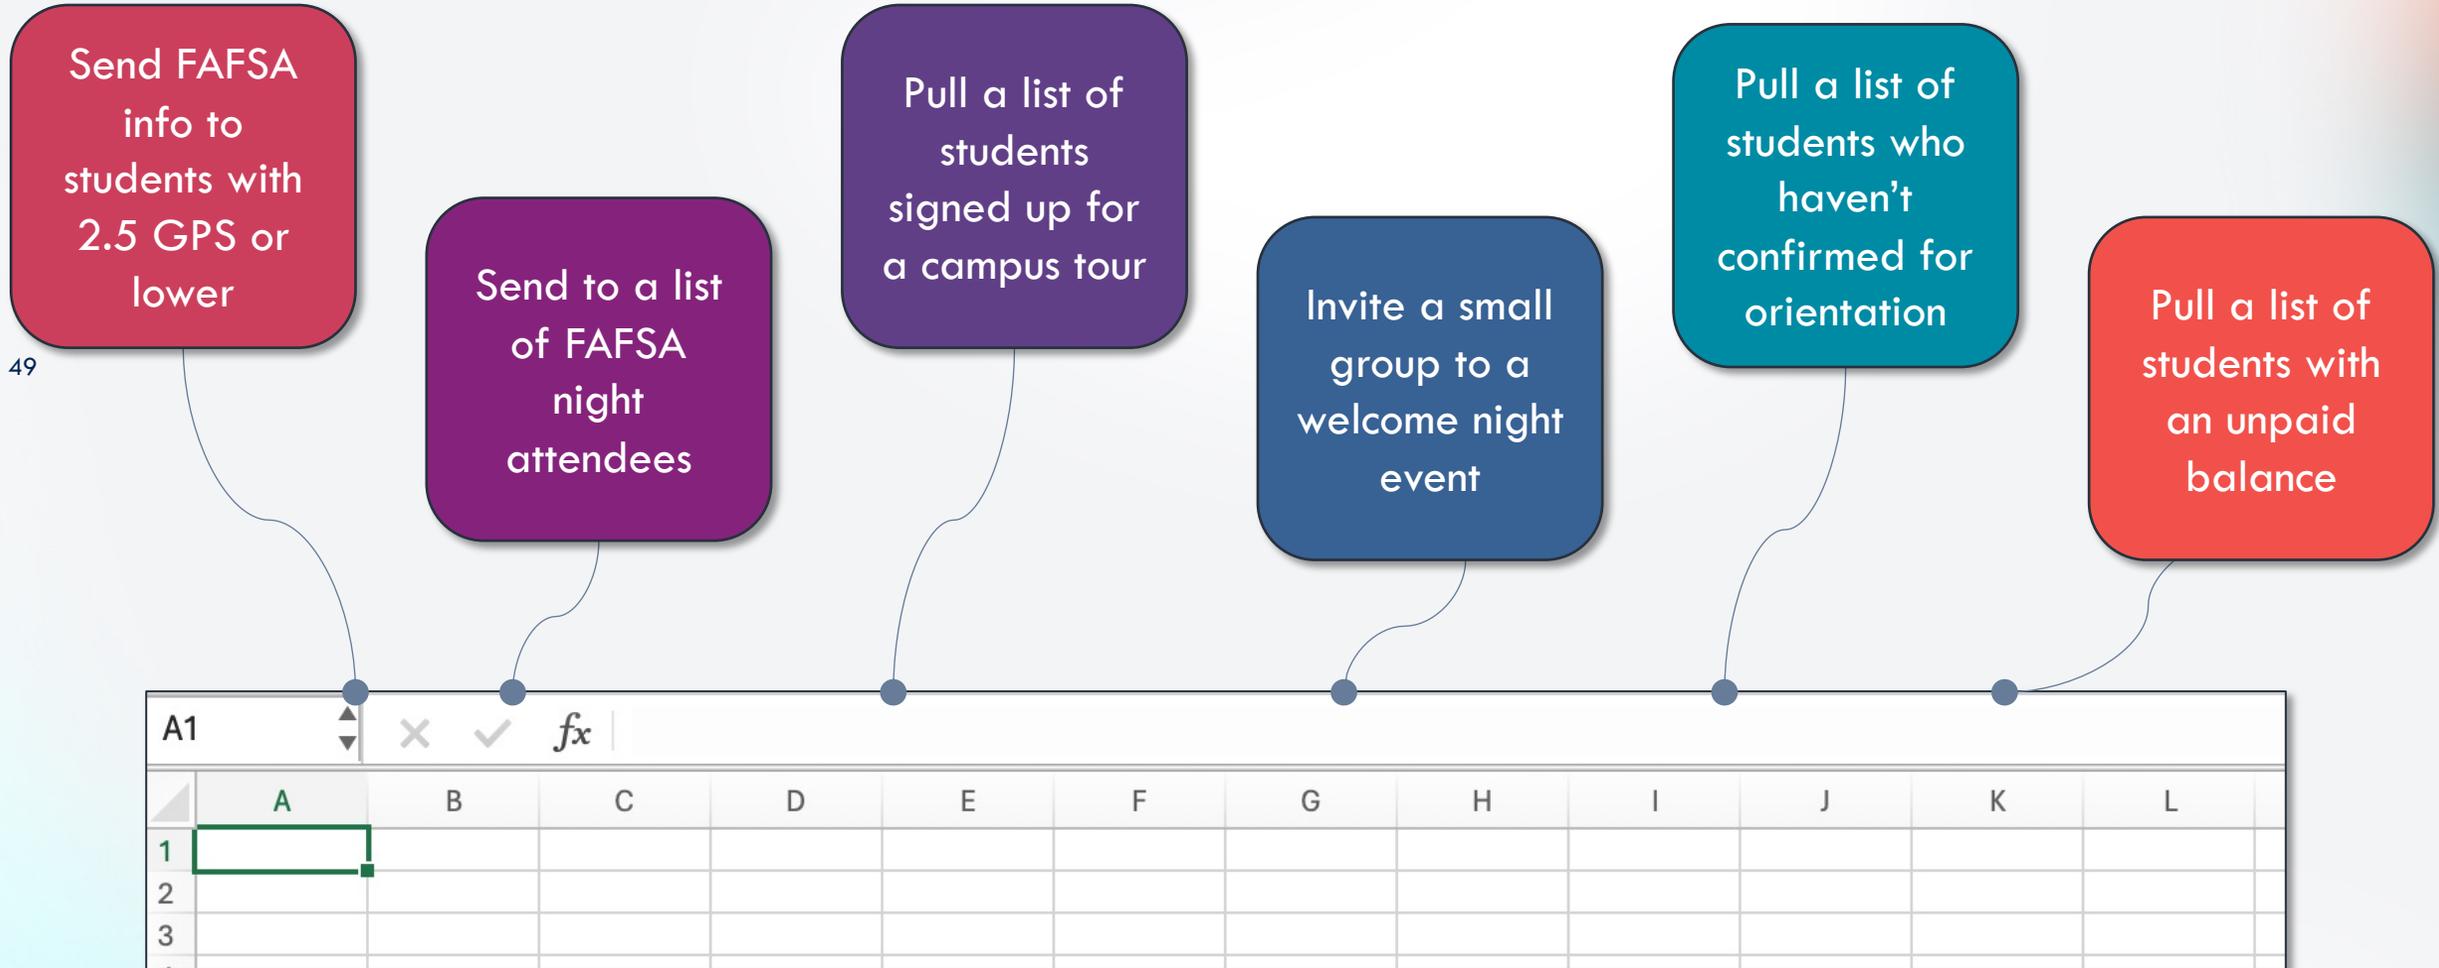

Adding a Single Contact

- Counselors must have this enabled
- This is **NOT** a go-to for updating contacts, it will be overwritten by new data files
- When should I use this feature?
 - If you want add yourself as a test contact
 - You need to send a quick message to a new contact
 - You will **MOSTLY** use your data upload or rely on automated import

47

How to add a single contact

When to use a Campaign Message

What will you put into practice after this webinar?

Answer in the poll!

1. What will you put into practice after this webinar?

- Create my data file
- Troubleshoot data file errors
- Upload new contacts
- Update current contacts
- Add a single contact
- Do a contact "clean-up"
- Contact support about a data clean up!
- Something else, I'll share in the chat!

Q&A

Please put your questions in the Q&A box.
I'll get to as many as possible and follow up via
email if more research is needed!

Thank You

See you next month!
